### **DR. FARID MENAA**

Professor, Director and Independent Consultant

Departments of Internal Medicine and Nanomedicine

California Innovations Corporation, CA, USA

Email: [dr.fmena@gmail.com](mailto:dr.fmena@gmail.com)

### **BIOGRAPHY:**

Dr. Farid Mena is an inter- and multi-disciplinary professional with worldwide reputation. He has three international post-doctoral terms in Oncology, Dermatology, and Hematology; MBA Entrepreneurship and MD candidate. During his ongoing career, he has mainly contributed to the identification and functions of new human disease-causing genes and variants, formulated natural products for anti-aging and developed innovative theranostic strategies against cancers, cardiovascular diseases, diabetes, obesity and infectious diseases. He has more than 10 years' experiences either in the academic, hospitals or industrial sectors. As Chief Scientific Officer and Vice-President R&D at Fluorotronics, Inc. he actively participated in the development of the disruptive "Carbon-Fluorine Spectroscopy". Dr. Mena collaborates with various organizations worldwide. He is a member of several prestigious medical and scientific organizations and editorial boards in the field of medicine, science, technology and business, including in the nano-segment. He has authored more than 100 articles including research and review articles, books, book chapters, textbooks, proceedings, and has participated to over 200 scientific international events including as co-organizer, keynote speaker, chairman. Dr. Mena's worldwide collaborations, holistic point of view and strong expertise in various fields led him to prevent, implement early diagnosis, and develop efficient and safer therapy.

### **RESEARCH INTERESTS:**

Dr. Farid Mena's research interest includes Preventive Medicine, Personalized Medicine, Translational Medicine, Integrative Medicine, Green Medicine, Nanomedicine, Biotechnology, and Nanotechnology.
