

Biography

Dr. Rabiul Ahasan's early career started with teaching engineering ethics, by-laws & service rules at Kaptai Engineering Academy in Bangladesh. He then immigrated to Finland, and completed his Masters & PhD in the area of human factors (HFs) engineering & ergonomics. His postdoctoral research was conducted on EMG based biomechanical studies (prolonged sitting dynamics). He has been teaching HFs / ergonomic courses at U_Concordia, workplace health & safety at U_Manitoba, cognitive sciences at UNIMAS (Sarawak, Malaysia), health sciences at UniSZA (Terengganu, Malaysia) & BUHS (www.buhs.edu.bd). Other than his recent appointment as a professor of the department of industrial engineering at King Saud University, Dr. Ahasan has been working as a docent of Oulu University in Finland and professor adjunct of the American International University (AIUB) in Bangladesh (www.aiub.edu.bd). He was also affiliated with Alternative Energy Masters Program at Lincoln University College in Selangor (Malaysia). In the past few years, he has focused on HFs issues & ergonomics application, served on roughly twenty conferences and workshop program committees including editorial tasks for various international journals. He has illustrated numerous scientific articles, presented research papers, and achieved more than twenty grants for his career research. As an Editor in Chief of this journal, Dr. Ahasan is inviting individuals for submission of original research manuscripts, case studies, scientific arguments and commentaries.
